

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”

“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

(Over to page 2)

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”

“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”

“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

(Over to page 2)

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”
“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

(Over to page 2)

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. “As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

(Over to page 2)

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”
“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”

“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

(Over to page 2)

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”

“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

(Over to page 2)

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

(Over to page 2)

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”
“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”
“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

(Over to page 2)

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”

“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”
“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

(Over to page 2)

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”

“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

(Over to page 2)

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. “As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

(Over to page 2)

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”

Schaeffer Academy Parent Testimonials

“This is a wonderful, caring, and encouraging learning environment. Our kids have been stretched, not too much, but just enough to know that they are capable of more than they could imagine. They are learning so much, so well, and with so much fun. As a parent, it's been a pleasure to get to know the teachers who are so invested in what they do and who can so successfully implement the Classical Education curriculum.”

“We have been at Schaeffer since our oldest child was in first grade. We have loved the classroom size and the wonderful teachers. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”
“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. The phonics and Shurley English curriculum has provided a steady foundation for learning. The highly structured classrooms have been so good for the kids. Throughout the year there are many fun activities tied into learning. Each grade has a great special field trip that the students look forward to. The practice time for the sports programs & drama in the upper grades are right after school, which allows us still to have family dinner together. Getting out before Memorial Day and having some Mondays and Fridays off through the year is truly the icing on a delicious cake.”

“Schaeffer Academy has been everything we wanted, a marriage of academic excellence and Christ-centered values. We are Roman Catholic and believe Schaeffer Academy is providing our daughter a foundation to allow her to better appreciate her faith.”

“Schaeffer Academy offers an excellent education in a caring and structured environment, and it has met all of our expectations in that regard. One advantage we had not expected was the positive influence on our young child by being in a school setting with the older grades.”

“Although the interactions between grades are often informal, such as having the younger kids visit a special exhibit or show done by higher grades, it provides a wonderful opportunity for our son to get excited about what he'll be learning in the future. Kids in the older grades also serve as terrific role models, exemplifying all of the characteristics we hope to foster in our son.”

“We are delighted that here in Rochester, we do not have to choose between an excellent education and a Christian education. At Schaeffer, we are thankful to have both. The well-structured classical curriculum, the caring, enthusiastic teachers, and the close-knit, involved community of like-minded families all add up to us feeling blessed to be a part of this school.”

“As our children have progressed through the grades, we have been particularly impressed with the concern that the teachers and the administration of this small school have for providing an excellent education and experience that will prepare our children well for their lives ahead of them. In spite of its smaller size, the staff works to provide opportunities that might otherwise be had only in a larger school. Because of its smaller size, our children receive particular attention, opportunities, and a sense of community that are lacking in a larger school. We feel that Schaeffer is equipping our children with knowledge and skills which will enable them to be successful in college, competitive in the workplace, and contributive to society at large. Schaeffer Academy is, indeed, an excellent education.”

(Over to page 2)

“We have the unique perspective of having our two sons start at Schaeffer Academy when they first opened their doors in 1993. One was in 3rd grade and the other in 5th grade. They went on to participate in the first and third graduating classes of Schaeffer Academy, finished 4 years of college each and went on to graduate school. This perspective may seem beyond the scope of a K-2 orientation session, but we can assure you that Schaeffer Academy’s dedication to a Christ Centered and Classical education ~ free from the whims of the next fashionable educational trend ~ and their authentic dedication and the personal interest shown by the staff toward each child, can make a tremendous difference in the educational experience and results of your children. The time between the first day of kindergarten and graduation is breathtakingly short! We consider an education at Schaeffer Academy a wise and effective investment in our children’s futures and we see the fruits of our choice every day.”

“I can’t tell you how much we have missed Schaeffer. We are such a “classical” family and we never knew it while in Rochester. Ladies cried at the “Classical Conversations” booth at the St. Paul Homeschooling Conference when I told them that we attended Schaeffer Academy. We have met people who know Schaeffer nationally.”

“We have not come across teachers like we had at Schaeffer Academy as we visited various Christian schools when we moved. Schaeffer has been a real loss in our lives. The girls are doing well at their new school and are leaders in their class. We thank you for the foundation Schaeffer gave our family. I pray my words bless, encourage, and strengthen you. I send a hug to our Schaeffer family—staff, teachers, kids and parents. Blessings to you all.”
